

Daniel Di Salvo

Senior Frontend Engineer | React | React Native | TypeScript | Next.js

Buenos Aires, Argentina | disalvo.juan.daniel@gmail.com | +54 9 11 6039-8630 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with nearly 9 years of experience building web and mobile applications for U.S. and Latin American clients. Strong in React, Next.js, React Native and TypeScript, with a focus on frontend architecture, accessibility, performance, API integration and automated testing. Current work extends into NestJS backend services and API documentation. Experienced in mentoring developers and delivering production iOS and Android applications.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React, Next.js, React Native, HTML5, CSS3/SASS

State & UI: Redux Toolkit, Zustand, Context API, Tailwind CSS, Material UI, Styled Components, Storybook

Testing & Architecture: Jest, React Testing Library, React Native Testing Library, E2E testing, micro-frontends, Module Federation

Backend & Data: Node.js, NestJS, Express, REST APIs, Swagger/OpenAPI, PostgreSQL, MongoDB, MySQL, Prisma

Tools & Practices: Git, CI/CD, Google Analytics, Figma, Agile/Scrum, accessibility, responsive design

AI-assisted development: GitHub Copilot, Cursor, ChatGPT

Languages: English (C1 - Advanced), German (B1)

PROFESSIONAL EXPERIENCE

Software Engineer — CDA Informática | Buenos Aires, Argentina | Aug 2026 - Present

- Develop and maintain React Native applications for the financial sector, implementing features and technical improvements.
- Build and maintain backend services and REST APIs with NestJS and TypeScript, including DTOs, services and controllers.
- Document APIs with Swagger/OpenAPI and support integration, QA troubleshooting and production delivery.

Senior Software Engineer — GlobalLogic | Buenos Aires, Argentina | Oct 2020 - Jun 2026

- Built scalable web and cross-platform mobile applications for U.S. clients with React, React Native, TypeScript and Material UI.
- Delivered iOS and Android features, reusable components and responsive interfaces; integrated REST APIs with backend and product teams.
- Designed frontend architecture and improved accessibility, maintainability and performance, including reducing unnecessary HTTP requests.
- Documented reusable mobile components in Storybook and tested them with Jest and React Native Testing Library.
- Raised unit test coverage from 0% to 60% by introducing testing practices and training the team.
- Managed production releases to the App Store and Google Play; contributed to CI/CD and technical documentation.
- Mentored developers, led workshops and conducted 100+ technical interviews.

Semi-Senior Software Engineer — Globant | Buenos Aires, Argentina | Nov 2017 - Oct 2020

- Developed React applications with class components and Hooks, building responsive, pixel-accurate interfaces.
- Improved accessibility for a large U.S. entertainment platform with semantic HTML and screen-reader validation.
- Contributed to unit and end-to-end testing, QA automation and client demos for U.S. stakeholders.

TEACHING EXPERIENCE

React Instructor — CoderHouse | Buenos Aires, Argentina | Feb 2021 - Feb 2023; May 2026 - Present

- Teach React, Hooks, routing, Context API, Firebase and API integration to cohorts of 60+ students.
- Design practical exercises and GitHub repositories; provide code reviews, troubleshooting and individual mentorship.

EDUCATION

Técnico Superior en Programación — Teclab Instituto Técnico Superior | Buenos Aires | 2020 - 2022

Coursework in web and mobile development, databases, user experience and project management. Built individual and team projects with React and Node.js.
